

Maryam Torkashvand

Iowa City, IA | maryamtorkashvand@outlook.com | 319-936-9380 | Authorized to work in the U.S.

PROFILE

- Student at the University of Iowa with seven years of customer-facing experience in international hospitality and one academic year supporting 42+ students each week as a university teaching assistant.
- Calm and professional in fast-paced settings, comfortable working independently, and trained in customer service, crew resource management, and CPR/AED.

SKILLS

Customer service and guest experience: front-desk-style check-in, greeting and assisting guests of all ages, answering questions, handling phone inquiries, working with diverse audiences.

Operations and reliability: following written and oral procedures, multitasking in fast-paced environments, independent task execution, accurate record handling, teamwork.

Crisis and safety: crew resource management, calm under pressure, real-time coordination, first-aid trained, friendly but firm rule enforcement.

Computer skills: Microsoft Office, basic support for computers and printers, online catalog and booking-style systems.

EXPERIENCE

Flight Attendant

January 2015 to July 2022

Mahan International Airlines, Tehran, Iran

- Welcomed and assisted hundreds of passengers per shift across diverse backgrounds, providing clear, friendly, and professional service throughout each flight.
- Followed strict written and oral safety and service procedures while remaining calm and resourceful in fast-paced, unpredictable situations.
- Coordinated closely with crew members in real time to ensure safety, comfort, and clear communication; trained in customer service, crew resource management, and first aid.
- Enforced cabin safety rules with passengers of all ages in a friendly but professional manner.

Teaching Assistant, Foundations of GIS Lab

August 2022 to May 2023

Department of Geographical and Sustainability Sciences, University of Iowa, Iowa City, IA

- Greeted and supported 42+ students each week across two laboratory sections; answered routine questions and directed students to additional resources when topics required specialist help.
- Broke down written and software-based instructions into clear, step-by-step guidance students could follow on their own.
- Assisted students with computers, software, and troubleshooting during scheduled lab hours.

Graduate Research Assistant

May 2023 to Present

University of Iowa, Iowa City, IA

- Mentored 5 high-school students during a study development program and led two orientation classes for graduate students from different backgrounds.
- Maintained organized records across large historical and academic collections with strict attention to accuracy.
- Worked independently for extended periods, planning tasks, documenting workflows, and meeting deadlines without close supervision.
